## Save \$25 on Room Air Conditioners.

Choose an ENERGY STAR qualified room air conditioner and you'll save \$25 through DTE Energy's Your Energy Savings<sup>SM</sup> program.

And you'll keep saving on cooling costs because a new ENERGY STAR qualified air conditioner can use up to 35 percent less energy than a 10-year-old model.

That can amount to savings up to \$250 over the unit's lifetime. Offer available to Detroit Edison residential customers only.

## \$25 Rebates on Clothes Washers.

ENERGY STAR qualified clothes washers use 10–50 percent less energy and water than standard models—helping you save money load after load.

Add a \$25 rebate from DTE Energy's Your Energy Savings program and you'll save even more. Offer available to Detroit Edison and MichCon residential customers.

## \$25 Rebates on Dehumidifiers.

An ENERGY STAR qualified dehumidifier removes the same amount of moisture as a standard unit of a similar size but uses 10–20 percent less energy.
