

Municipal Pumping Supply Agreement

THIS AGREEMENT, dated _____ 20 ____,

by and between _____ of _____,

(Corporate Name)

(State of Incorporation)

herein called the "Customer", and The Detroit Edison Company, a Michigan corporation, of 2000 2nd Avenue, Detroit, Michigan 48226, herein called the "Company", is for a supply of electric energy to be delivered by the Company to the Customer's premises located

at _____

Street Address

in the _____

City-Village-Township

occupied as _____

Type of Business

The supply shall be delivered by the Company and received and paid for by the Customer under the terms of the Municipal Pumping Rate (at Secondary Voltage) and the Rules and Regulations applicable thereto as set forth in the Company's Rate Schedule on file with and approved by the Michigan Public Service Commission. The Rate Schedule is subject to change from time to time by Order issued by the Michigan Public Service Commission. The Municipal Pumping Rate (at Secondary Voltage) as of the date of this Agreement is printed on the back of this sheet and made a part thereof. Where special services are required, service hereunder is subject to the terms and conditions set forth in the applicable Standard Contract Rider.

The supply is also governed by the Rules for Electrical Service established by the Michigan Public Service Commission (Case No. U - 6400), and by the Rules of the Company on file with the Commission which do not form a part of the Rate Schedule. All Rules are subject to change from time to time.

This Agreement shall be for a period of _____ years beginning on the _____ day of _____, 20 ____, or whenever service is made available after that date, and thereafter shall be extended from month to month until terminated by mutual consent of the parties hereto.

Municipal Pumping Supply Agreement

Availability of Service:

Available to governmental agencies desiring service at secondary voltage for pumping and to governmental agencies with service at primary voltage having the storm pumping horsepower that is at least 60% of the total connected load. This rate is not available to installations, other than storm pumping, having a demand of over 1,000 kilowatts and not taking service on this rate prior to August 19, 1972.

Hours of Service:

24 hours.

Current, Phase and Voltage:

Alternating current, three-phase at 24,000 volts.

In certain city districts, alternating current is supplied from a Y connected secondary network from which 120Y / 208 volt three-wire service may be taken.

Rate Per Month:

Service Charge:

\$10.85 per customer per month, plus

An Energy Charge per kilowatthour of:

8.116¢ per kWh for all kWh.

Base Rate Reduction:

A credit of .28528¢ per kWh applied to all kWh.

Power Supply Cost and Recovery Factor:

The Energy Charge in the above rate is subject to the provisions of Schedule Designation B-4.6.

Surcharges and Credits:

As approved by the Commission. See Schedule Designation B-4.9.

5% Securitization Reduction:

A credit of 5% applied to the base bill and surcharges, excluding the Rate Increase Surcharge.

Late Payment Charge:

See Schedule Designation B-2.10.

Contract Terms:

Open order, terminable on three days' written notice by either party.

Minimum Charge:

The Service Charge.

Effective for service rendered on and after February 21, 2004, under authority of order of the Michigan Public Service Commission in Case No. U-13808 dated February 20, 2004.
