

Small and Medium Business Program

# Lighting bonus

## Save on energy-efficient lighting upgrades

Compared to incandescent bulbs, ENERGY STAR® certified LED lighting generates less heat, uses up to 90% less energy and lasts up to 25 times longer—that's up to 15,000 hours—which reduces your maintenance costs. Lighting upgrades can also help enhance productivity, customer and employee comfort and everyone's safety.

## Start saving

When you're ready to make energy-saving upgrades, apply this limited-time bonus, which can be combined with existing qualifying rebates, to help offset the cost of your project. Simply enter your bonus code on the application to qualify. We can help you calculate your savings!
