

Safer sites at lower costs with a 10% bonus rebate

Upgrading your exterior lighting to high-efficiency LEDs can reduce energy use by up to 50-75%, lower maintenance costs and improve visibility across your site. This summer, you can stack our standard rebates with a limited-time **10% bonus rebate from June 1 to Aug. 31.**

Why upgrade now?

- Reduced maintenance and operating costs.
- Improve safety and visibility around your building.
- Accelerate payback timelines with this limited-time bonus rebate.
- Reduce long term energy costs with more efficient lighting.
- Save money on upfront costs through our limited-time bonus rebate.

Get started in three easy steps:

- Schedule a no-cost consultation with a DTE Energy Advisor.
- Identify eligible lighting upgrades for your facility.
- Apply for rebates and bonus rebates.

Ready to save energy this summer? Don't wait:
