Notice of Unplanned System Maintenance - Complete

UPDATE: Effective immediately, maintenance work is complete, restrictions through the Willow and Belle River Segments are lifted.

Effective Gas Day 8 ID1 Cycle - unplanned system maintenance is required that will impact the Willow and Belle River segments.

There will be a slight reduction in available capacity through the Willow and Belle River segments. These reductions will remain in effect until further notice.

Gas entering DTE's system at Willow Run (i.e., ANR Willow Run #9038, PEPL MCON #9028, Nexus Ypsilanti #9219) may be subject to capacity restrictions on the Willow Segment

Gas entering DTE's system ***at any receipt point*** may be subject to capacity restrictions on the Belle River Segment. Gas destined for injection into DTE Gas Storage (i.e., MAP #9036 – Storage Injection, MAP #9501 – IBS Injection) may also be impacted.

We very much appreciate your assistance and support during this critical period. DTE Gas requests that customers proactively watch for updated Operational Notices on DTE's eNominator System, Gas Noms Webpage, and direct emails during this critical period.

If you have any questions, please contact your Account Manager.

For scheduling questions, please contact Gas Nominations at 1-833-383-6667.
