

MARCH 2024 WAIVER OF EUT MONTHLY 3% STORAGE WITHDRAWAL LIMITS

If you do not serve EUT customers, please disregard this notice.

During the month of March, monthly withdrawals from storage for end-use transportation (EUT) customers are limited to 3% of their contract ACQ (see Section E, sheet E-18.00 of DTE Gas Company's tariff). As a result of the ongoing mild temperatures and current storage operations, DTE Gas will waive the monthly withdrawal limit for all EUT customers for March 2024. EUT customers who exceed the 3% of ACQ monthly withdrawal limit during March will not be assessed an unauthorized gas usage charge, unless the EUT customer uses DTE Gas' system supply (i.e., monthly consumption exceeds the sum of gas in storage and net deliveries to DTE Gas). If this occurs, then unauthorized gas usage charges will be assessed. All other terms and conditions of DTE Gas Company's tariff and gas transportation agreements remain in effect.

If you have questions, please contact DTE Gas Nominations staff or the customer's assigned gas account manager.

Thank you,

DTE Gas Nomination Services
