

To: All DTE Shippers and EUT Gas Suppliers

Today's Date: 12/03/2025

Notice Effective Date: 12/04/2025

SUBJECT: Notice of Continued Pipeline Maintenance

On September 11, 2025, DTE Gas posted notice that it would be conducting Pipeline ILI Remediation on the A-Line that could impact your service and last until December 19, 2025. Likewise, on November 11, 2025, DTE Gas posted notice that it would be conducting Planned Pipeline Maintenance on the E-Line that could impact your service between December 1, 2025, through December 12, 2025.

Based on its rights under Section 11.7 of its FERC Operating Statement that allow it to "curtail or discontinue services, in whole or in part, on all or a portion of [the] System at any time . . . when in Transporter's judgment, capacity or operating conditions so require, or it is desirable or necessary to make modifications, repairs or operating changes to [the] System," DTE Gas is posting this notification to inform you that the schedule for the work on the lines noted above has not changed. The work, required for safety and reliability of system operations, will continue as scheduled this week. The impact, if at all, on your service will be dependent on the nominations made during this time.
