

To: All DTE Shippers and EUT Gas Suppliers
Today's Date: 01/21/2026
Notice Effective Date: 01/23/2026

**SUBJECT: Cold Weather Operational Conditions & OFO Watch
Effective 01/23/2026 – 1/26/2026**

DTE is NOT declaring an Operational Flow Order (OFO) at this time but is providing Advance Warning to shippers that this weather event could create the need for DTE to issue an OFO with no additional prior notice to protect system integrity.

DTE Gas is requesting its End User Transportation customers to voluntarily deliver at least 97% of their MDQ effective for January, Gas Day 23 through January, Gas Day 26. Please do not utilize location #9196 MICHCON - STORAGE WITHDRAWAL/POOL as a receipt for EUT Deliveries. This is not a request for EUT Customers to reduce consumption.

An Operational Flow Order (OFO) is a directive, per Sections E1.1 and E4.5 of DTE Gas's Rate Book, requiring customers to nominate and deliver flowing gas supply to DTE's system during specified Gas Day(s). Those EUT Customers not flowing gas supply as required by any OFO Notice on any Gas Day during the OFO are subject to Unauthorized Gas Use per the DTE Gas Rate Book.

DTE will continue to monitor system integrity closely and will provide updates as they become available.

We appreciate your assistance and support during these critical operations. DTE Gas requests that customers proactively watch for updated Operational Notices on DTE's eNominator System, Gas Noms Webpage, and direct emails.

If you have any questions, please contact your Account Manager.

For scheduling questions, please contact Gas Nominations at 1-833-383-6667.
