

To: All DTE Shippers and EUT Gas Suppliers
Today's Date: 10/15/2026
Notice Effective Date: 10/17/2026

SUBJECT: DTE Gas Capacity - UPDATE

Nomination cuts for Gas Day 10/17 are expected to be minimal. DTE Gas anticipates step-down capacity reductions on Gas Days 10/18,10/19, 10/20, and 10/21 due to one storage field reaching maximum capacity and system operations.

DTE anticipates additional reductions in capacity later in October as other storage fields approach full capacity. DTE Gas will continue to monitor storage fill levels and will attempt to provide advance communication on impacts to capacity. However, due to the nature of our storage operations, advance notice may not be feasible.

The 24" Pipeline ILI Remediation remains ongoing through December 11th. Any updates to this project will be communicated as they become available.

Oct-26	Maintenance Type	Map Numbers Impacted	Potential Cuts Firm Primary	Potential Cuts Firm Secondary/IT
09/08-12/11	24" Pipeline ILI Remediation	ANR Willow Run (9038), Nexus Ypsilanti (9219), PEPL MCON (9028), Woolfolk Deliveries (9039) DTE Gas Storage Injection (9036), IBS Injection (9501), EUT Nominations	LOW	MEDIUM

Gas delivered to #9036 DTE GAS COMPANY STORAGE INJ, #9501 IBS (INJ), #9525 BALANCING INJ (DEL), and EUT nominations may be restricted.

We appreciate your assistance and support during these critical operations. DTE Gas requests that customers proactively watch for updated Operational Notices on DTE's eNominator System, Gas Noms Webpage, and direct emails.

If you have any questions, please contact your Account Manager.
