SUBJECT: DTE Gas Capacity - UPDATE

DTE anticipates additional reductions in capacity on Tuesday, October 27th, as storage fields reach full capacity. DTE Gas will continue to monitor storage fill levels and will attempt to provide advance communication on impacts to capacity. However, due to the nature of our storage operations, advance notice may not be feasible.

The 24" Pipeline ILI Remediation remains ongoing through December 11th. Any updates to this project will be communicated as they become available.

Receipt location #9196 MICHCON – STORAGE WITHDRAWAL/POOL, is the only receipt location not expected to be reduced due to the maintenance. Therefore, DTE Gas recommends utilizing this receipt location for deliveries to EUTs throughout the balance of the maintenance work.
