

To: All DTE Shippers and EUT Gas Suppliers
Today's Date: 10/05/2026
Notice Effective Date: 10/06/2026

SUBJECT: Planned System Maintenance - UPDATE

The 30" Pipeline Replacement is now expected to be completed and returned to service Gas Day 6. This return to service will provide some relief to nomination reductions that have been occurring since the onset of the outage on August 24th. However, the availability of storage capacity will decrease towards the end of injection season, and nomination reductions are expected to increase again.

Additionally, as a reminder, to maximize available injection capacity in the month of October, the DTE Gas Storage Field Maintenance project originally scheduled for 10/05/2026-11/13/2026 has been deferred to a later date.

The 24" Pipeline ILI Remediation remains ongoing through December 11th. Any updates to this project will be communicated as they become available.

Oct-26	Maintenance Type	Map Numbers Impacted	Potential Cuts Firm Primary	Potential Cuts Firm Secondary/IT
09/08-12/11	24" Pipeline ILI Remediation	ANR Willow Run (9038), Nexus Ypsilanti (9219), PEPL MCON (9028), Woolfolk Deliveries (9039) DTE Gas Storage Injection (9036), IBS Injection (9501), EUT Nominations	LOW	MEDIUM

Gas delivered to #9036 DTE GAS COMPANY STORAGE INJ, #9501 IBS (INJ), #9525 BALANCING INJ (DEL), and EUT nominations may be restricted.

We appreciate your assistance and support during these critical operations. DTE Gas requests that customers proactively watch for updated Operational Notices on DTE's eNominator System, Gas Noms Webpage, and direct emails.

If you have any questions, please contact your Account Manager.
