

To: All DTE Shippers and EUT Gas Suppliers
Today's Date: 08/31/2026
Notice Effective Date: 09/01/2026

SUBJECT: Planned System Maintenance – UPDATE to Vector Milford Locations

Effective Gas Day 9/01 - Timely Cycle until further notice, DTE Gas Operations will implement a change in operations by attempting to deliver gas to #9237 VECTOR MILFORD JUNCTION-DEL and receive gas at #9137 VECTOR MILFORD JUNCTION-REC. This operational change is being attempted in response to current system conditions and is not guaranteed to be successful or sustainable.

As DTE attempts to flow gas to Vector Milford, system operations will remain at high risk for the next several days. This operational change carries a heightened risk that it may not perform as intended and may not be maintainable under current system conditions which may result in Intraday Pipeline Capacity Cuts.

All other restrictions noted in the Planned System Maintenance-Update dated 08/25/2026 remain in effect.

We appreciate your assistance and support during these critical operations. DTE Gas requests that customers proactively watch for updated Operational Notices on DTE's eNominator System, Gas Noms Webpage, and direct emails.

If you have any questions, please contact your Account Manager.

For scheduling questions, please contact Gas Nominations at 1-833-383-6667.
