

To: All DTE Shippers and EUT Gas Suppliers
Today's Date: 09/17/2026
Notice Effective Date: 09/21/2026

SUBJECT: Planned System Maintenance - UPDATE

The DTE Gas 24" Valve Replacement project originally scheduled for 10/05/2026-10/30/2026 has been deferred to a later date.

The 30" Pipeline Replacement and 24" Pipeline ILI Remediation remain ongoing, any updates to these projects will be communicated as they become available. Restrictions to Interruptible Storage Services and EUT Nominations are expected to continue at the current magnitude through at least 10/31/2026. The 20"/24" Pipeline ILI Remediation scheduled 9/21/2026-10/9/2026 is not expected to increase the level of restrictions.

Gas delivered to #9036 DTE GAS COMPANY STORAGE INJ, #9501 IBS (INJ), #9525 BALANCING INJ (DEL), and EUT nominations are expected to be restricted.

Continued efforts to deliver to #9237 VECTOR MILFORD JUNCTION-DEL and received at #9137 VECTOR MILFORD JUNCTION-REC continue to be dependent on daily system operations.

Receipt location #9196 MICHCON – STORAGE WITHDRAWAL/POOL, is the only location not expected to be reduced due to the maintenance. Therefore, DTE Gas recommends utilizing this receipt location for deliveries to EUTs throughout the balance of the maintenance work.

We appreciate your assistance and support during these critical operations. DTE Gas requests that customers proactively watch for updated Operational Notices on DTE's eNominator System, Gas Noms Webpage, and direct emails.
