LIFTED - IT STORAGE INJECTION RESTRICTION

10/19/23 – Beginning Gas Day 19, ID1 Cycle, restrictions to IT storage injections are lifted.

Due to system operation limitations, beginning Gas Day 18, Timely Cycle, DTE Gas is restricting interruptible storage injections and interruptible balancing injections to **zero**. It is estimated that this restriction will be in place until Gas Day 20, Timely Cycle. DTE Gas will notify customers as soon as the restriction can be lifted.

Delivery points affected are:

- DTE GAS COMPANY STORAGE INJ (MAP #9036)
- IBS INJ (MAP #9501)

This restriction does not impact EUT customers.

DTE requests that customers and gas suppliers proactively watch for updated operational notices on DTE's eNominator system, Gas Noms Webpage, and direct emails during this critical period.

Please contact your gas account manager with any questions. For scheduling questions, please contact Gas Nominations at 1-833-383-6667.
