

NOTICE OF PLANNED SYSTEM MAINTENANCE

UPDATE: Based on current conditions and nominations, DTE anticipates this maintenance may result in Overrun, Interruptible, Secondary, and EUT curtailments for the period of May 2 thru May 15. Deliveries to Vector Milford #9237 will be available on a limited basis.

DTE Gas will be performing planned maintenance in May 2023. The following maintenance windows will constrain volumes moving through the pipeline segments and certain points as described below.

Schedule of Work:

Segments Impacted	Dates Impacted
Milford, Willow, Belle River	May 2 thru May 15
Willow, Belle River	May 23 thru May 26

- Gas entering DTE's system at Willow Run (i.e., ANR Willow Run #9038, PEPL MCON #9028, Nexus Ypsilanti #9219) will be subject to capacity restrictions on the Willow Segment.
- Gas being delivered to Vector-Milford Delivery #9237 will be limited.
- Gas entering DTE's system at any receipt point will be subject to capacity restrictions on the Belle River Segment.
- Interruptible gas destined for injection into DTE Gas Storage (i.e., MAP #9036 – Storage Injection, MAP #9501 – IBS Injection) will be impacted.

It is recommended that GCC Suppliers and Easement nominate their primary receipt locations to avoid nomination cuts.

PLEASE NOTE: This is not a request for EUTs to reduce usage.

Actual segment capacity will vary depending upon pipeline operations, weather, and market conditions.

Maintenance is currently estimated to occur within the time frames listed above with an expectation that normal operations will resume between these time frames. **If nominated volumes exceed system capability during these times, there is the potential for nomination cuts to be made per Section 3.2 of the DTE Gas Rate Book.**

DTE requests that customers and gas suppliers proactively watch for updates to operational notices on DTE's eNominator system, Gas Noms Webpage and direct emails during this critical period.

Please contact your gas account manager with any questions. For scheduling questions, please contact Gas Nominations at 1-833-383-6667.
