

Outdoor Protective Lighting

Energy-efficient lighting solutions to keep your parking lot safe

The DTE Community Lighting Team works with new and expanding businesses to achieve their parking lot lighting needs through our expertise and solution-based offerings. We have been leading the lighting business for more than 110 years, and our experienced team can help design an effective, budget-conscious lighting solution that will meet your parking lot's unique needs. Do you have existing parking lot lighting that may need to be upgraded, or that you no longer want to be burdened with maintaining? We also work with businesses to acquire existing lighting systems, upgrade the systems, and maintain them moving forward.

Our energy-efficient products provide superb lighting from dusk until dawn, promoting safety and security on your business's property. Plus, our products come with preventative and reactive maintenance services, so you don't have to compromise the safety and security of your business over fear of future maintenance costs.

Our area lighting fixtures will create a well-lit parking lot, keeping your business secure and safe. The monthly cost would range between \$30-\$45 per month*.

Flood lights can be mounted directly onto utility poles on your property, providing substantial light output at a reasonable cost. The monthly cost for these lighting fixtures would range between \$13-\$29 per month*.

*Exact pricing varies based on desired wattage and total number of installed lights.

What are the benefits of purchasing lighting from DTE?

- We'll perform maintenance at no cost to you if your light ever needs servicing.
- Our Outdoor Protective Lighting rates include your electrical consumption as well as service for power outages, mechanical issues, third party damages, scheduled equipment maintenance and more.
- Our large portfolio of energy-efficient lighting products delivers optimal performance while keeping your costs and carbon footprint low.
- Dedicated outage analysts will manage any reported issues with your lights.
- If you qualify for the post charge funding option, there is little to no upfront cost to purchase our lighting.
