

What to do when you experience a power outage

Easily manage your DTE Energy account

You can do all of these actions online when you save outage.dteenergy.com to your favorites or by downloading the DTE Energy Mobile App at the Google Play and Apple App Stores.

Michigan weather is unpredictable – and often times inclement weather brings outages. We are actively working to increase our reliability across the state so outages are few and far between, but if you do experience an outage, here's what you can do:

Report outages and monitor restoration times

Track outages in your area by viewing the Outage Map

Report downed power lines or streetlight outages

Sign up for alerts using your DTE online account. Once you log in, click on My Profile & Preferences and then Manage Notifications.
