

GET A
\$100
GIFT CARD

Join us at our last drop-off event of the year!

Recycling your old, working fridge or freezer is a great way to reduce your energy use.

Start by recycling your unused, secondary, or inefficient appliances, including refrigerators, freezers, and more! Earn \$100 for large appliances and \$30 for small appliances when you recycle them at our upcoming drop-off event.*

SMALL APPLIANCES

- Small fridge or freezer
- Room AC
- Dehumidifier

REBATE DETAILS

- Large appliances include refrigerators and freezers and must be between 10 and 30 cubic feet
- Small appliances include refrigerators and freezers that are less than 10 cubic feet, as well as window air conditioning units and dehumidifiers
- You must have an active DTE Energy residential electric account to participate
- Appliances must be clean and in working condition
- Each DTE residential electric account is limited to recycling four large appliances throughout 2023
- There is a limit of four small appliances per drop-off event for a DTE residential electric account, with participation limited to two drop-off events in 2023
- Small appliances do not have to be accompanied by a large appliance
- Pre-registration is required to participate in the event
- Please note:
 - We cannot accept appliances with cut cords
 - We cannot accept Sub-Zero refrigerators and freezers
